"Siz karalayın, biz aydınlatalım."
"You sketch & We lighten"

Bahar Aydınlatma ailesi olarak, 1986 yılında başlayan serüvenimizin 37 sene sonunda 300 kişinin çalıştığı 16.000 metrekarelik kapalı üretim alanına sahip bir fabrikaya dönüşmüş olmasının gururunu yaşıyoruz. Ve elinizde tuttuğunuz bu katalog ile bu serüveni ve bu serüvende nasıl ilerlediğimizi sizinle paylaşmayı arzu ediyoruz.

Otel, Restoran, AVM, Kongre veya İş Merkezi gibi proje kompleksleri genel çalışma alanımızı oluşturuyor.

Aydınlatma projelerini sınırsız olasılık içeren ve birçok değişkene bağlı yürütülen bir süreç organizasyonu olarak görüyoruz. Aralarında tasarımcı ve mühendis arkadaşlarımızın da yer aldığı proje ekibimiz tecrübe ve bilgi birikimi ile her projeyi aynı heyecan ve hassasiyet ile ele alıyor. Bir proje tamamlandığında mekâna katılmış ışıltının etkisini görmek ana motivasyon kaynağımız oluyor.

Proje sürecinin doğal dinamizmi firmaya tükenmek bilmeyen bir dinamizm katıyor. Her proje yeni bir dinamizm, her ürün yeni bir detay çözme sürecini beraberinde getiriyor ve bu devinim Bahar Aydınlatma'yı her daim güncel ve zamana ayak uyduran bir konumda tutuyor.

Terzilik usulü, amatör bir heyecanla başlayan üretim sürecimiz, özel bir emek ve çaba ile mekâna özel bir hal alıyor. İmalat departmanımızda çalışan 100'ü aşkın ustanın el emekleri ile makine parkurumuzun profesyonel işleyişi birleşiyor.

Kristalden metale, ahşaptan polyestere, seramikten cama birçok malzemeyi 37 senelik tecrübe ve halen güncel olan heyecanımızla bir araya getirerek her sene onlarca yeni projeye imza atıyoruz. Yıllar geçse de yaptığımız işlerin arkasında duruyoruz ve proje partnerlerimize çözüm ortağı olarak hizmet veriyoruz.

Katalogumuzda ürün skalamızı, bir projeyi nasıl ele aldığımızı ve yapmış olduğumuz projelerden örnek görsellerimizi görebilirsiniz.

We are, Bahar Lighting Family, proud to have a factory placed over 16.000 squaremeters area with 300 employes after 37 years dedicated to lighting. The catalogue you are holding now is for you to see how we manage through this adventure.

Hotels, restaurants, shopping malls, congress and business centers are our main field of work.

We interpret the lighting projects as a journey with full of limitless possibilities and ability of organisation of a process related to many variables. Our team members including designers and engineers approaches all projects with the same enthusiasm. Seeing the glitter that is achieved from the lighting in an environment is the biggest source of motivation.

The natural dynamism of projects generates the infinite dynamism of the company. Every project comes with a new dynamism and every product with a new process of detail solving which keeps Bahar Lighting up to date.

Our manufacturing process which starts with a bespoke tailoring and an amateur excitement come to conclusion as an application special made for the Project.

Our workers' hand works combines with the professional running of our machine park.

Crystal to metal, wood to polyester, ceramic to glass; we combine many materials with our 37 years experience and enthusiasm and complete many projects in every year.

You can see how we approach a project, our product range and project visuals in our catalogue.

BAHAR

AYDINLATMA

16.000 metrekarelik kapalı alana sahip fabrikamızda, Proje - Mock up üretimi - Seri üretim bölümlerinde işinde uzman 300 kişi çalışıyor. Bir aydınlatma armatürünün üretim sürecinde karşılaşılabilen her aşama fabrika sınırları içinde çözülüyor. Örneğin bir abajur üretim süreci Talaşlı İmalat (Kesim-Büküm-Kaynak) ile başlıyor, Polisaj, Tesviye, Zımpara, Boya, Tel ve Şapka İmalatı, Montaj olarak devam ediyor ve Paketleme olarak son buluyor.

Fabrikamızın makine parkurunda CNC Torna, CNC Dik İşleme Merkezi, Üniverzal Freze ve Torna, Rovolver, CNC LAZER Kesim Makinesi, Tam otomatik ve Daire Testereler, Abkant ve Pressler bulunuyor. Cam kesme, yapıştırma ve delme işlemlerinin yapıldığı bir cam işleme bölümümüz de bulunmakta. Ahşap atölyemiz, boyahane ve şapka ve tel atölyemiz fabrikamızın sınırları dahilinde. Geniş hacimli depo alanımızda her türlü hammadde stoklu olarak bulunduruluyor. Bu makine ve teçhizatların hepsini konusunda uzman ve ustalık belgesine sahip ustalar çalışıyor.

Since 1986

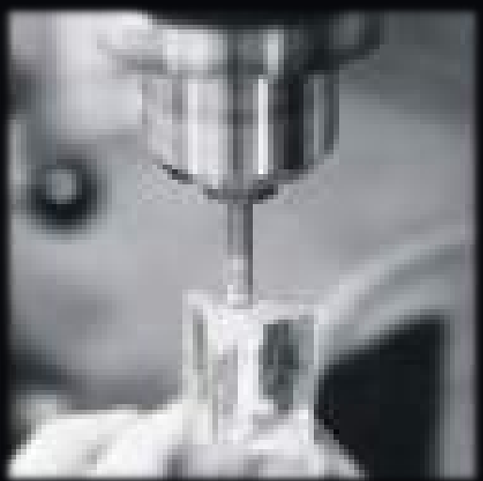

Totally 300 people is working in our 16.000 squaremeter factory at departments of Project - Mock up production - Serial production. Every stages necessary for a product manufacturing process is handled inside the factory. For example a table lamp's manufacturing process starts with Machining and Metal cutting and go ons with Polishing, Levelling, Grinder, Painting, Shade Fabric and Wiring, Assembly and end with Packing.

There are CNC Lathe, CNC Vertical Processing Center, Universal Router and Lathe, Revolver, CNC Laser Cut Machine, Full automatic and Circular Saw, Bending Press in our machinary. We cut, drill, bond and color the glass parts in our glasswork departmant. Wood Atelier, Dyehouse, Shade Atelier are within the boundaries of our factory. All kind of raw material are stocked in our ware house. All of the machinery are used by the experts in their field.

DESIGNERS
TASARIMCILAR

ECE YALIM DESIGN STUDIO

1996 yılında, tasarım yaklaşımlarını ve deneyimlerini bir araya getiren Ece ve Oğuz Yalım, Artful İç Mimarlık ve Tasarım Şirketini kurmuşlar ve bu tarihten itibaren çok çeşitli iç mimari proje tasarımları ve uygulamalarını gerçekleştirmişler ve gerçekleştirmeye devam etmektedirler.

Bu dönemde, bütün iç mimari tasarım çalışmalarını yine kendi tasarladıkları mekana özel ürün tasarımlarıyla desteklemişlerdir. Bu yaklaşımın doğal bir sonucu olarak 2005 yılında Feride Toprak'ı da aralarına katarak, Artful İç Mimarlık ve Tasarım bünyesinde Ece Yalım Design Studio adı altında ürün tasarım departmanını oluşturmuşlardır.

Tasarladıkları objelerin kökleri, iç mimari tecrübelerinin getirisiyle mekan tasarımından fazlasıyla besleniyor olup, ortaya çıkan tasarımlarının ortak özelliği; kullanım senaryolarında güçlü hikayelere dayandırılmaları, fonksiyon ve kaliteden ödün vermeden, yenilikçi, sorgulayıcı, yaratıcı ve estetik olmalarıdır. Yalnızca belli bir stile ve zamana odaklanmadan güçlü bir 'insan-mekan-obje' ilişkisi kurgusu tasarımlarının ortak hedefi olarak belirlenmiştir.

Halen, yurt çapında kurumsal birçok firma için ev, ofis mobilyası, banyo mobilyaları, aydınlatma ve aksesuar tasarımlarına devam etmekte, tasarım danışmanlığı yapmakta ve kendi markaları olan Artful için de yeni koleksiyonlar oluşturmaktadırlar.

In 1996, Ece Yalım and Oğuz Yalım set up Artful Interior Design Company gathering different design approaches by adding up their early experiences. Since then, they have been working on designs of a wide variety of interior projects.

Each of their interior design works have been supported with their especially designed products according to space.

That approach led them to enlarge their team and scope of their work, by setting up the product design department; Ece Yalım Design Studio in 2005, under the roof of Artful Interior Design Co. Meanwhile Feride Toprak has joined their team.

The objects they design have their roots in space design as a natural result of their longtime interior design experiences. Keywords of all their designs are; aesthetic, innovative, creative with no compensation from function and quality, which requires a very critical working process and to create usage scenarios based on strong stories. To come up with a strong 'human-space-object' relationship is the common approach to their design process, no matter which trend is 'in' at the moment.

GAP

Story of GAP
GAP Tasarım Hikayesi

GAP günümüzün modern iç mimarisinin keskin küp formlarına tezat, dairesel formu ile farkedilmeyı hedefleyen bir mimari aydınlatmadır.

Led teknolojisinin kesintisiz ışıma potansiyelini kullanarak çemberin tanıdık formunun altını çizer. Tasarımında, daire formun kasıtlı olarak eksik bırakılan porsiyonu sayesinde, birimlerin birbirlerinin içine geçebilmesi sağlanır. Farklı çaplarda önerilen birimler, bu imkanı kullanarak kullanıcının hayal gücü ile çeşitlenebilecek gorsel bir zenginliğe bürünür.

Gap, önerilen farklı askı detayları ile hem dikey hem de yatay kullanıma olanak tanır. Kurgudaki bu zenginliği sayesinde, yüksek tavanlı, büyük hacimlere sahip otel lobilerinde, karşılama hollerinde, göz dolduran, her biri o projeye ait hissi veren özgün bir ışık enstalasyon imajı yaratması hedeflenmiştir.
Güncel teknolojiler sayesinde, Led ışık kaynağı kullanan bu ürün, mimari mekanda etkin bir aydınlatma sağlamaktadır.

GAP, özellikle çoklu kullanım senaryolarında, birimlerin iç içe geçebilmesi, boyut çeşitliliği, çift eksenli kullanımı, mimara/iç mimara kendi komposizyonunu yaratma imkanını verir.

Birimlerin birbirlerine göreceli konumlarından yola çıkarak, durağan olmayan dinamik bir etki yaratmak mümkün olduğu gibi, mevcut üç boyut içinde ışık ile, yeni üç boyutlar, yeni perspektifler yaratmak da mümkündür.

GAP is an architectural lighting which aims to get attention with its circular shape by seperating itself from the sharp forms of modern interior design.

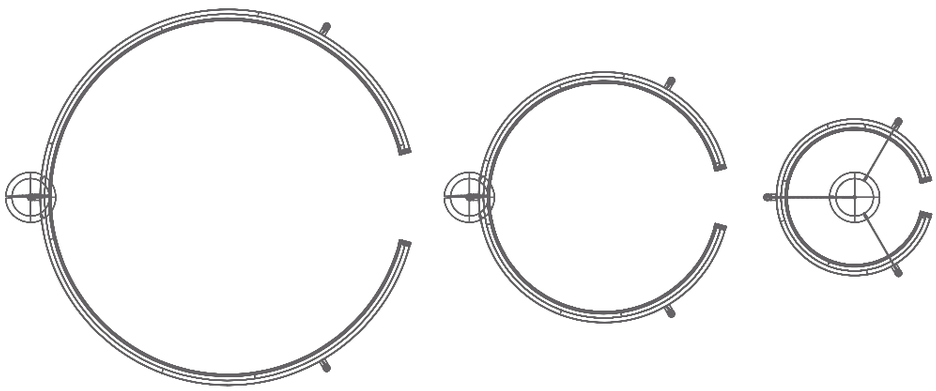

It emphasizes the circular shape of circle with the continuous luminescence potential of LED. The “C” form of the GAP enables to the units to intertwine with each other. By means of different diameters of the units, the user can create a visual variety according to own imagination.

GAP has two different hanging options offering to use it in a vertical and also horizontal way. Thanks to various usage scenarios opportunity, it can be used in huge hotel lobbies and reception holes. It is designed to combine with the decoration of the spaces by creating its unique lighting perception.

With the help of current Led technologies, Gap offers an effective lighting in the architectural spaces.

Especially in multiple usage scenarios, the architect / interior architect has an opportunity to create own composition with product features in terms of the intertwinement, dimensional diversity, dual axis usage.

It is possible to create new aspects and perspectives with different arrangements and combinations of units, which gives to spaces a dynamic ambiance.

NERGİZ ARİFOĞLU

Nergiz Arifoğlu, Atina'da doğdu, İstanbul'da yaşıyor ve çalışıyor. Mimari formasyonunun üzerine sürdürdüğü yüksek lisans eğitimiyle ışık mimarisi konusunda uzmanlaşmış ve '96 yılından beri birçok anıtsal yapının, otelin, müzenin, çok amaçlı binaların, ofislerin, avm'lerin mimari aydınlatma tasarımına imza atmış bir tasarımcıdır.

NA LIGHTSTYLE, Nergiz Arifoğlu liderliğinde mimari aydınlatma tasarımı ve danışmanlığı hizmeti veren bir tasarım ofisidir.

Ofisin ilk günden beri hedefi, görmek istediği ışığı tasarlamak...
"Işığın tasarımı; yaşam tarzını ve kalitesini belirler" mottosuyla; zamansız, doğayı referans alan, sürdürülebilir, teknolojik ve estetik birleşimlerin peşinde…

Nergiz Arifoğlu was borned in Atina, is living and working in İstanbul. She has a master degree about architectural lighting. Since 1996, she succeeds in various lighting design projects such as historical buildings, otels, museums, multi purpose buildings, offices and shopping centers.

NA LIGHTSTYLE is a design office providing the architectural lighting design and consultancy services in led by Nergiz Arifoğlu.

Since the foundation of NA LIGHTSTYLE, they aims to design the light which they dream. With the motto of "The design of lighting determines the style and the quality of life", they searches the timeless, sustainable, technologic and aesthetic combinations.

HAKAN GÜRSU

Endüstri Ürünleri Tasarımcısı Dr. Hakan Gürsu, sıra dışı bir tasarımcı, düşünür, çizer ve fikir insanı olarak eserleriyle uluslararası bir başarıya imza attı. Kurucusu olduğu inovasyon odaklı DESIGNNOBIS Tasarım / İnovasyon şirketi, Türkiye'nin 40 Öncü Girişimci Şirketi arasında yer aldı. Dünyanın prestijli tasarım yarışmalarında çevreci ve vizyoner projelerle 10 yıl içerisinde 160'ın üzerinde ödül ile Türkiye'yi tasarımda ikinciliğe taşıdı. İnovasyon, yaratıcı düşünce, tasarım ve ar-ge konularında çeşitli ulusal ve uluslararası etkinliklerde konuşmacı olarak yer aldı. Tekneden oyuncağa, mobilyadan elektrikli aletlere uzanan çeşitli alanlardaki tasarımları ile bilinen problemlere farklı çözümler üreten Hakan Gürsu, ODTÜ'de öğretim üyesi olarak tasarım öğrencileri yetiştirmeyi sürdürüyor.

Industrial Designer Dr. Hakan Gürsu, has succeeded as an extraordinary illustrator, designer and intellectual internationally. DESIGNNOBIS Design / Innovation firm that he has founded is selected among Turkey's Top 40 Entrepreneur Firms. He's been honored in world's prestigious design competitions by winning over 160 design awards within 10 years and made Turkey rank second in design field. He contributed to several national and international organizations as a speaker on innovation, creative thinking, design and R&D. Ranging from boats, toys and furniture to electrical devices, his environmentally friendly and visionary projects are introducing unusual solutions to common problems. He continues to train design students at METU.

SCORPION

SCORPION

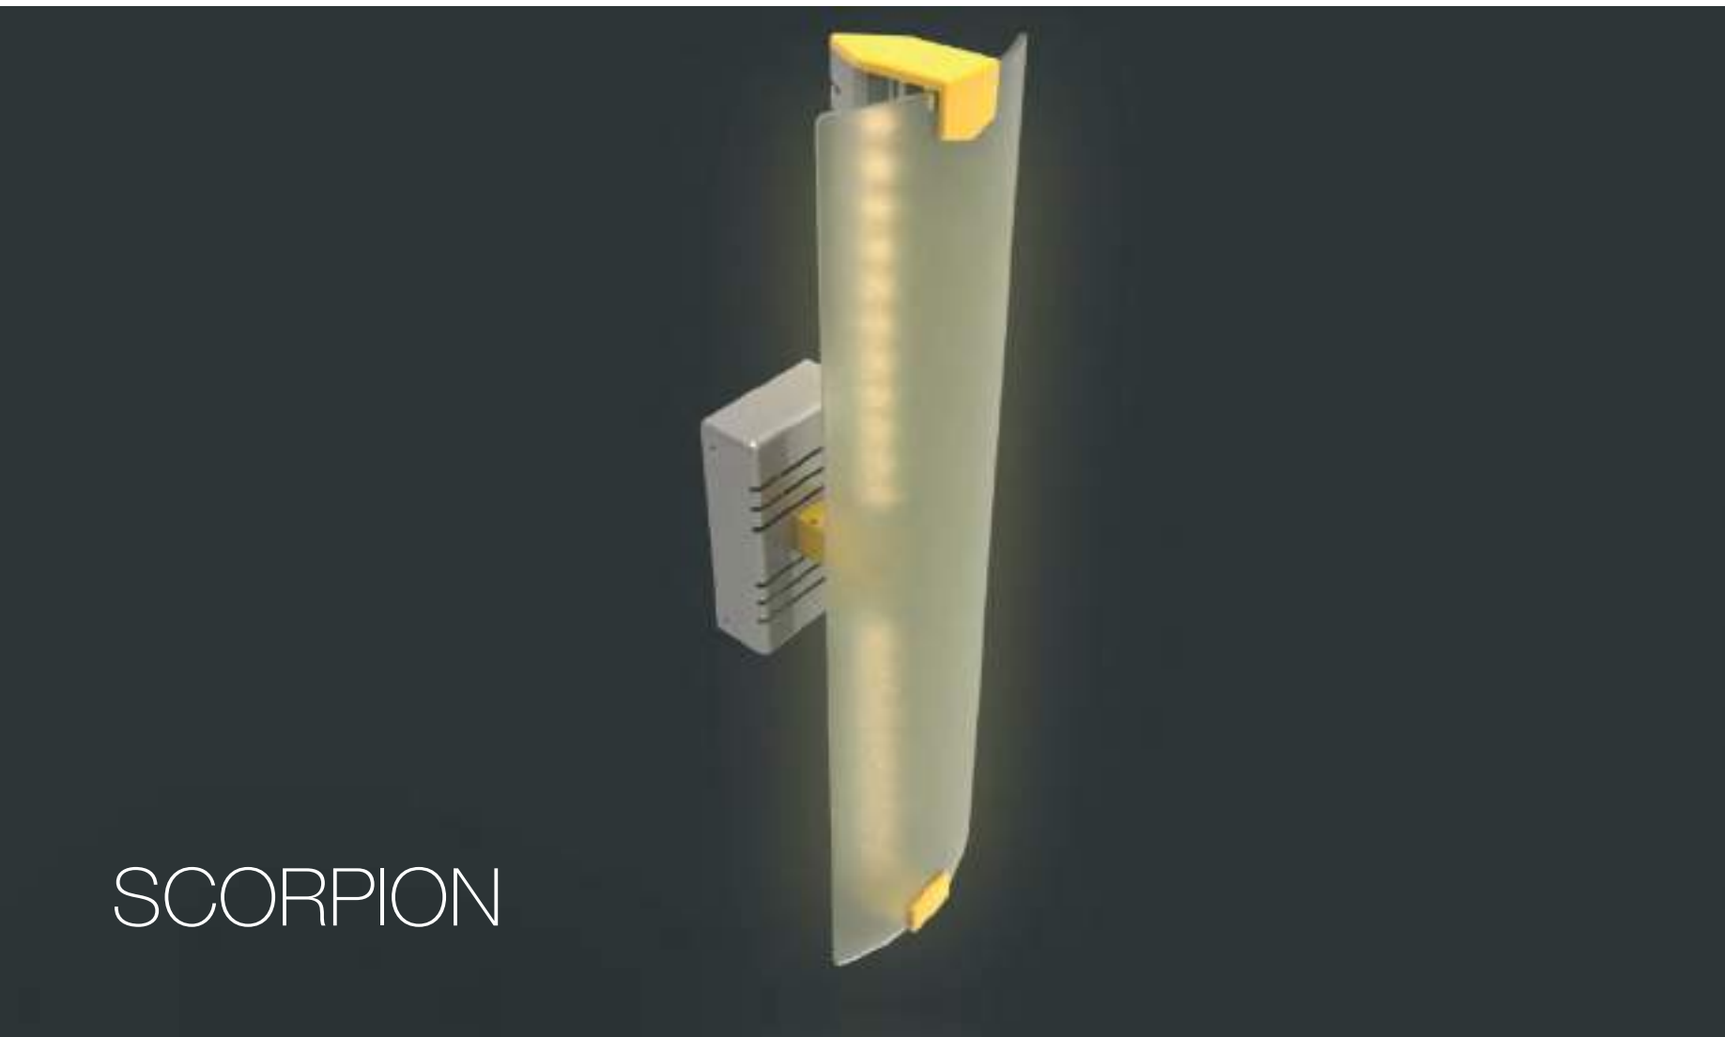

L.: 30 - 35 cm

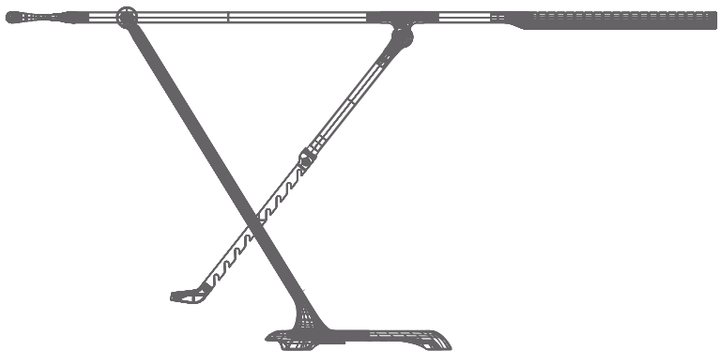

SCORPION

Story of SCORPION
SCORPION Tasarım Hikayesi

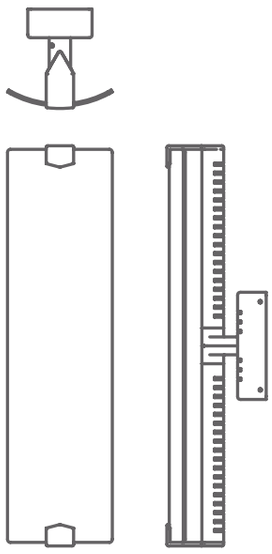

Scorpion kullanıcısına büyük ölçüde ayarlanabilirlik sunan bir masa lambasıdır. Uzunluğu 30 cm-65 cm arasında değişir. Ergonomik sapı sayesinde boyunun kolayca ayarlanabilir olması onu dayanıklı bir ürün yapar. Lamba gövdesini ve tabanını birbirine bağlayan küresel birleşim noktası sayesinde 360 derece dönebilir. Döküm ve ekstrüzyon alüminyum bileşenleri, ABS bağlantı parçaları ve 18 adet 3,5 watt LED aydınlatmasıyla Scorpion lamba modern ve minimalist bir tasarım olma özelliğini taşıyor. Döküm alüminyum başlığındaki ızgaralar sayesinde soğutma ve hafiflik sağlanır. Kısaca, Scorpion lamba çeşitli eğlenceli renk seçenekleriyle; ayarlanabilir, hafif, estetik ve dayanıklı bir masa lambasıdır.

Scorpion Lamp a desk lamp that offers the user huge range of adjustability. The product is lengthened from 30cm to 65cm. It is really easy adjusting it to intended level with the help of ergonomic handle and without a mechanism, so it can be said Scorpion Lamp is an enduring product. Thanks to ball point joint that combines lamp body and base at the bottom, user can turn the lamp 360 degree. The lamp is designed with minimalist and contemporary design approach consists of cast and extruded aluminum parts, aluminum pipes, injected ABS joining parts and 18 3,5 watt LED lamps. The cast aluminum head is has blanks on it for refrigeration and lightness. All in all Scorpion Lamp is an adjustable, lightweight, aesthetic and durable desk lamp with different joyful colors.

Scorpion serisinin otel odası aydınlatması olarak geliştirilen aplik ve sarkıt lambaları, ürünün minimalist çizgisini farklı renk ve malzeme alternatifleriyle çeşitli iç mekânlara uygulanabilir kılar. Tasarımda üçgen biçimli ana profil korunmuş olup, ışık yönüne göre özelleşmiş modüller oluşturulabilecek şekilde tasarlanmıştır. Işık difüzyonu yarı saydam yüzey aracılığıyla sağlanırken, istendiğinde yansıtıcı yüzeyler de kullanılabilir.

Scorpion Serial, which is designed for the hotel rooms as a wall sconce and pendant lamp,is also suitable for various interior spaces with its minimalist design by means of different color and material options. It is designed to create modules according to lighting direction while having a main profile in triangle shape. For lighting diffusion, it has translucent surfaces. Also, based on user's needs, reflective surfaces can be used.

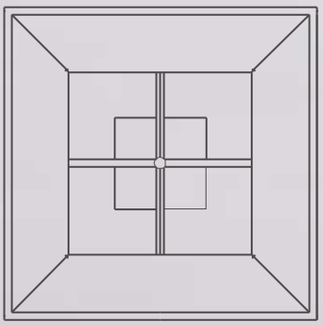

G. HAKAN KÜLAHÇI

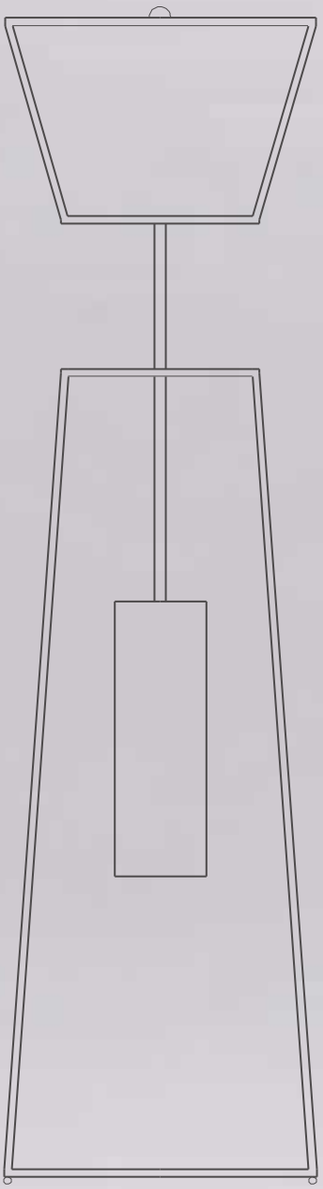

1962 Doğumlu olan G.Hakan KÜLAHÇI, 1979 yılında İstanbul Devlet Güzel Sanatlar Akademisi (Mimar Sinan Güzel Sanatlar Üniversitesi) ,İç Mimarlık Bölümünü kazanıp 1984 yılında yüksek içmimar olarak mezun olmuştur.Askerlik görevini 1985 yılında,Kıbrıs 39.Tümen de,emir subayı olarak tamamlayan Külahçı,daha sonra 2,5 yıl özel bir şirkette çalışarak mesleki deneyim kazanmıştır. 1988 yılında mimar olan eşi Pınar Külahçı ile evlenmiştir. Bu evlilikten Peri ve Mert isminde 2 çocuğu olmuştur. Aynı sene Antalya'nın ilk iç mimarlık firması olan ARTMİM LTD. ŞTİ.'ni kurarak özel çalışma hayatına atılmıştır. Serbest çalışmaya başladığı ilk yıllarda piyasadaki işçilik kalitesinin düşük olması nedeniyle bir mobilya atölyesi kurmuş,1990 yılında,endüstri mühendisi olan,kardeşi Gökhan Külahçı ile ortak olarak mobilya üretim ağını genişletmiştir.Böylelikle bünyesinde güçlü bir ofis ve üretim ekibi barındıran Türkiye'nin önemli,iç mimari tasarım ve uygulama firmalarından biri olmuştur. Mimari ve iç mimari alanda hizmet veren Artmim firması,özellikle,turizm kompleksleri üzerinde uzmanlaşmış,yurt içi ve yurt dışında birçok projeye imza atmış ve atmaktadır. Bu iş yoğunluğu arasında Külahçı,aynı zamanda Akdeniz Üniversitesi, Güzel Sanatlar Fakültesi, İç Mimarlık ve Çevre Tasarımı bölümünde ders vermekte ve İç Mimarlar Odası Antalya Şubesi Başkanlığına da başarı ile devam etmektedir.

Born in 1962, G.Hakan Kulahci finished Istanbul University Faculty of Fine Arts (Mimar Sinan FineArts University) / Department of Interior Architecture and graduated in 1984 as a master interior architect. After he had completed his national services as an adjutant in T.R.N.C. (Turkish Republic of Northern Cyprus) Division 39 in 1985, Kulahci gained work experience by working in a private company for 2 ½ years. In 1988, he married his wife Pınar Kulahci, who is an architect, and together they had two kids, whose names are Peri and Mert. In the same year, he founded Artmim Co. Ltd., which is the first interior architecture firm founded in Antalya, and launched his own private work life. He started a furniture atelier due to the lack of quality in the furniture products at that time. In 1990, he became business partners with his brother Gokhan Kulahci, who is an industrial engineer, and extended his furniture production network further. With this move, his firm became one of the most significant interior architecture and application firms in Turkey, which has a strong in-house and production team. Artmim, which provides services in architecture and interior architecture sectors and is specialized in tourism complexes, achieved numerous projects at home and abroad. Kulahci, in all this workload and all, also gives lectures in Akdeniz University Faculty of Fine Arts / Department of Interior Architecture and Environmental Design and successfully carries on his duties as the chairman of Antalya office of Chamber of Interior Architects of Turkey.

NEŞET GÜNE

1969 yılında Ankara'da doğdu. İlk, orta ve lise öğrenimini TED Ankara Koleji'nde tamamladı. 1992 yılında Bilkent Üniversitesi Güzel Sanatlar Fakültesi İç Mimari ve Tasarım Bölümü'nü bitirdi.

1992-1996 yılları arasında Gün Mobilya ve İkoor A.Ş. Firmalarında tasarımcı olarak çalıştı.

1996 yılında, ortağı Lale Güne ile 'Pro-fit Neşet Güne İnşaat Dekorasyon Sanayi ve Ticaret Limited Şirketi'ni kurdu.

Bilkent Üniversitesi İç Mimarlık Bölümü'nde ve birçok derneğin düzenlediği etkinliklerde konferanslar verdi.

www.profitnesetgune.com

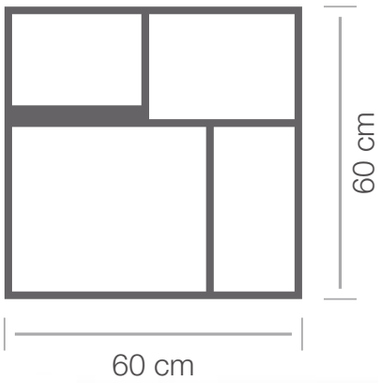

He was born in Ankara at 1969. He graduated from TED Ankara College. He studied at Faculy of Fine Art, Bilkent University Interior Architecture and Design Department.

He worked for Gun Furniture and Ikoor A.Ş. as designer between 1992 - 1996.

He established 'Pro-fit Neşet Güne İnşaat Dekorasyon Sanayi ve Ticaret Limited Şirketi' with his partner Lale Güne at 1996.

He has been giving lectures at Bilkent University Architecture Department at many differents sectoral associatons.

ART-D

Efficient Led Lighting

1920-40'lı yıllar arasında popüler olan Art-deco tarzı, benim hala vazgeçemediğim stillerden biri olmaya devam ediyor… Keskin köşeli, kübist elemanlarla, paralel çizgili dokularla bir arada kullanılan bu yaratıcı mimari üslup her zaman favorim olmuştur. Art-D'nin tasarımı ise T.E.D üniversitesinin iç mimari projelerini çizdiğim dönemde ortaya çıktı… Sade, keskin hatlı, yalın, güçlü ve aynı zamanda elegant çizgide bir ürün yaratmak istemiştim… Art-D'yi hem tavan plafonyeri hem de duvar apliği olarak kullanılacak şekilde tasarlamıştım. Bu eskiz çalışmamın daha sonradan Bahar Aydınlatma tarafından seri üretime geçirilmiş olması beni ayrıca onore etmişti.

The art deco style that was popular at 1920-40's is being one the styles which I can not give up from... This creative style which mostly uses sharp corners, cubist elements, parallel lines is my favoritve all time. The design of Art-D appeared during my works on interior design of T.E.D. university. I wished to create simple, sharp strong and elegant line. I designed Art-D to be used as wall lamp and also ceiling lamp. I was honored by Bahar Aydınlatma as they started to serial production after my sketch work..

Moi Otel Balo salonunun 3 ayrı havuzuna uygulanan 350 metrekare alanda aydınlatma enstalasyonunda 5000 adet borasilikat cam kullanıldı.

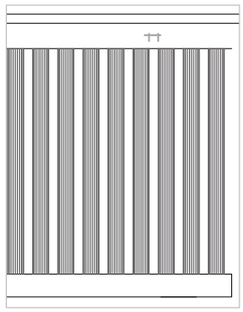

Tasarımcı firmanın özel seçimi olan şampanya rengi özel kaplama ürün bitimi olarak uygulandı.

5000 pieces of borasilicate glass were used in the lighting installation on an area of 350 square meters applied to 3 separate pools of the Ballroom of Moi Hotel.

Champagne color special coating, which is the special choice of the designer company, was applied as a product finish.

Otel lobisinde yaklaşık 2000 adet kristal kullanılarak yarım küre formuna oluşturuldu.

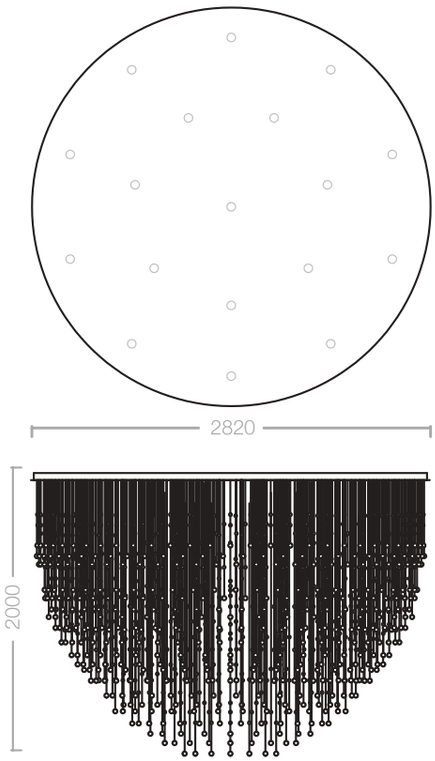

Tabanda parlak paslanmaz kullanılarak ayna efektinden faydalanılarak mekan tasarımına ekstra katkı sağlandı.

It was created in the form of a hemisphere using approximately 2000 crystals in the hotel lobby.

An extra contribution was made to the space design by using the mirror effect by using glossy stainless steel on the floor.
